

Puzzle Pirates Payment Authorization

Normally in Puzzle Pirates we maintain controls on the total amount a player may spend in a month. We do this to minimize the possible impact on our players from fraudulent transactions.

If you would like to purchase doubloons over this monthly limit, there are a few steps required to confirm that the transactions authorized on your account are approved and that no one will get a nasty surprise next month! Payment authorization above the limit is only available for credit card or Paypal orders made directly through our site, and will normally only be applied to a single Puzzle Pirate account.

We hope that this form is relatively straightforward for you to complete. Basically, the goal is to:

- Identify the Puzzle Pirate's account you would like to make purchases on
- Collect the information we need to confirm ownership of the funds used
- Confirm that you're using a credit card or Paypal to make purchases
